MyCloud Administrator Manual

Version 6.1.9

LAN default IP and Password							
IP Address	192.168.1.1						
Account / Password	admin / admin						

MyCloud SettingAdministrator

It come with a slick cloud storage solution for SMB to have their own private cloud ensuring safety, integrity and real-time availability. My Cloud satisfies users with easy access, multi-language support, real-time file synchronization, group accounts management, priority-based control, and online data storage of all type of files. Users can store, share and access their important business files anytime, anywhere using any number of compatible devices and almost any browser. (Figure 1)

Figure 1 My Cloud

MyCloud Setting

Select Configuration > My Cloud Setting > MyCloud Setting (Figure 2)

MyCloud Setting

- Http Port Setting: allow Http when you enabled it
- Https Port Setting: allow Https when you enabled it

Restart MyCloud service

■ Restart MyCloud service:

Reset MyCloud admin password

■ Reset MyCloud admin password: enter a password for admin

Default password is "admin"
